

Name _____ Period _____

For this project, you are going to recreate a 30 second scene from a movie, trying to match the camera angles and the dialogue. When you are finished, you are going to import the video to Final Cut and add the audio from the original clip. Using the 6 squares storyboard your video.

1. In Youtube, find a 30 second school appropriate scene from a movie.
2. Copy the URL, open a new window. Open ssyoutube (savefrom) and paste the URL.
3. Download the clip. Import the clip into Final Cut.
4. Storyboard the video to match the types of camera angle and shots.
5. Film your video. Import it to Final Cut. Remove your audio and replace it with the audio from the original movie.
6. Your video must include the original clip, followed by your clip with the replaced audio.
